Hi Robin,

You mean the Saved Search "NEPA Segment"? It's either available for anyone in the Workspace to use ("public") or just the creator of it ("private"). In this case the Saved Search is "Public" so anyone can use it who has access to the Workspace.

The national Relativity Support team grants permissions to a Workspace (e.g., ED#) so she'll have to ask them directly and/or tell them she has access issues. We do not have control of Relativity or specific Workspaces as the software is based in DC and OEI is responsible for its access, not the regions. Any password, access or login issues need to be directed to the OEI Relativity group.

Please tell her to email RelativitySupport@epa.gov and tell them her situation.

Thanks,

Perry

Hi Perry -

Got a call from Elaine Suriano today (who is doing the HQ review of the FOIA request on the NEPA segment). She told me that Candi Schaedle, a DC EPA lawyer, cannot access this sub-file — even though you granted her permission. She was told either her computer is too old, or they don't have the most recent version of Relativity, and that somehow R9 is in control of this.

Perhaps you can help?

Robin

Subject: relativity question

Got through my NEPA batch, but wanted to go back to beginning to my not sure or specific numbered documents, and don't quite know how to sort or manipulate by number.

Call me at your convenience, please? 2-3742?
